

One on One Fundamentals

“Private Baseball Instruction Since 1990”

2026 Fall High School Developmental Baseball Clinic/League

“A Relaxed atmosphere in order to improve Baseball Skills and development.”

This will be the 15th year that I have offered this program. The idea behind the program was to offer offseason baseball development in a game atmosphere to players interested in continued baseball development. This program is offered on Sundays as to not interfere with fall sports. It is your choice which activity you attend during the fall.

There is absolutely no pressure from here.

In years past I have had 4 teams of 15+ players. However, over the past few years there has been a steady decline in participation, so we have had to improvise. This program is not limited to just Reading players. I have had players from Austin Prep and surrounding towns.

Details:

- 1) Teams (position specific) will be determined by me based on the information received from each participant. (10 Players per team – consisting of 8 positional players, 1 to 2 catchers out of the 10 players will be 5 pitchers) This could change depending on participation.
- 2) Pitchers will throw 2 innings (unless I determine it to be less)
- 3) Once all pitchers have thrown and there is still time I will pitch the remainder of the game.
- 4) This is a developmental environment so when there is a ‘Teachable Moment’, I will pause the game, have all players meet with me to discuss the situation at hand.
- 5) During the game I will be umpiring from behind the mound to call the game and work with the pitchers during the game.
- 6) Every year is challenging and there will be weekends that we will need to improvise if we are short players. If we do not have enough players for 2 games, we will most likely change to 1 game.
- 7) Weather is always an issue. Fields are not usually attended to especially on Sundays so, if there is rain in the forecast, there is a good chance we will be postponed. However, I always will try to make up any time missed.
- 8) Games are 9 to 10 innings (2 ½ to 3-hour time limit)
- 9) If players need to leave early or arrive late, no problem. Just let me know as I know there are other commitments in the fall, and this is considered “Out of Season.”
- 10) Game start time – 1st game is 12 pm, (this time will change when daylight savings kicks in.) If we have enough participants for 4 teams, then we will make time arrangements to accommodate.

League is designed for players to receive the necessary repetition to hone their skills at a particular position.

League is designed for pitchers to “get their work in” and develop confidence in their individual pitching abilities.

If you are interested, please let me know as soon as possible as positions are on a first come first served basis.
